### What is Cloudbric?

Cloudbric is an elite Web Application Firewall (WAF) specifically designed for small and medium sized businesses or those who lack extensive IT security knowledge.

Penta Security Systems has turned the no. 1 WAF technology in Asia (owns 70% market share) into a cloud based monthly subscription service with a unique payment model. Learn more about our services and be sure to take control of your website today!

## How Cloudbric Works

## How Cloudbric Can Help SMBs

### Precise

Analyzes malicious traffic using elite custom detection algorithms for higher accuracy (low false positives)

### All-Inclusive

Offers an all-in-one security package based on website size (monthly data traffic), rather than charging per premium feature

### Trusted

20 years of IT security expertise and recognized by industry leaders, such as Gartner, Frost & Sullivan, SC Magazine, etc.
